REACH Compliance Declaration

REACH is a European Union Regulation on chemicals and their safe use (EC 1907/2006). It deals with the Registration, Evaluation, Authorization and Restriction of Chemical substances. The law entered into force on 1 June 2007. The goal and objective of REACH is to improve the protection of human health and the environment.

In principle, REACH regulation requests manufacturers or importers of articles into Europe are obligated to inform recipients of any articles that contain chemicals on the Substances of Very High Concern (SVHC) candidate list above a 0.1% concentration (by weight per article). In addition, all substances of very high concern must be identified when said substances are intended to be released from articles during normal and foreseeable conditions of use.

DDO hereby declare that we are aware of the requirements in accordance with EU Regulation (EC) No. 1907/2006 (REACH) and comply with it. We are continuously and regularly review the candidates list, which is published in accordance with Art. 59 para.1 and 10 and align it with our processed materials and products to ensure they do not contain substances on the REACH SVHC candidate list in concentrations greater than 0.1% by weight per article. Furthermore, our products are not intended to release any substances under normal and reasonably foreseeable conditions of use.

As REACH regulation is updated frequently, for the major changes afterwards, such as the addition of SVHC substances into Annex XIV and restricted substances in Annex XVII, DDO will keep the focus on the developments of the REACH legislation to ensure continued compliance.

Number of Substances on the Candidate List: 253 (Latest update: 04 February 2026)

Annex XIV: <https://echa.europa.eu/candidate-list-table>

Annex XVII: <https://echa.europa.eu/substances-restricted-under-reach>
